

How We Heal Ourselves And Others: Communicating In Ways That Create Meaningful Change

A 6-Hour Home Study Program for Health Professionals

Effective communication is critical to the healing process. In this new 6-hour seminar, learn to identify the inherent wellness in a person with mental or physical illness and how to communicate in ways that lead to meaningful change.

This evidence-based program provides health professionals working in medical, dental, and behavioral settings with the key skills to produce calm, enhance hope, reduce pain, and promote recovery.

Participants completing this program should be able to:

1. Identify brain and behavioral processes that contribute to the healing process.
2. List successful approaches to relieve anger, sadness and anxiety.
3. Outline effective strategies for handling difficult conversations.
4. Describe how to apply Positive Psychology to promote mindfulness, positive emotions, self-compassion, and acceptance.
