

Understanding and Treating Obsessive-Compulsive Spectrum Disorders

A 6-Hour Home Study Program for Health Professionals

OCD is one of the ten most disabling medical or psychiatric conditions in the industrial world. However, advances in the brain and behavioral sciences have provided significant relief for people with recurrent and persistent obsessions and compulsions.

This program describes the origins, characteristics, and evidence-based treatment of obsessive-compulsive spectrum disorders in adults and children.

Participants completing this program should be able to:

1. List key symptoms and forms of OCD spectrum disorders.
2. Name several brain structures related to OCD.
3. Identify the classes of drugs that are used to treat OCD.
4. Describe how exposure and response (ritual) prevention are applied.
5. List several adjunctive therapies that can improve therapeutic outcomes.

CONTINUING EDUCATION

NURSES: Institute for Brain Potential (IBP) is accredited with distinction as a provider of continuing nursing education by the **American Nurses Credentialing Center's Commission on Accreditation**.

IBP is approved as a provider of continuing education by **California Board of Registered Nursing**, Provider #CEP13896, and **Florida Board of Nursing**. This program provides 6 contact hours.

COUNSELORS, PSYCHOLOGISTS, SOCIAL WORKERS & MFTs: Institute for Brain Potential has been approved by NBCC as an Approved Continuing Education Provider, ACEP No. 6342.
