*An unprecedented number of young people have been diagnosed with ADHD, anxiety, depression, bipolar disorder, borderline personality, and related conditions. Misdiagnosis is common and misinformation about treatment is widespread.*

*This program is designed to help health professionals improve their understanding of advances in psychopharmacology and alternative or complementary psychological treatments.*

*Participants completing this program should be able to:*

- 1. Summarize practical advice for parents and health professionals who live or work with youths that are receiving or may receive drugs for psychiatric disorders.*
- 2. Discuss the benefits of psychostimulants and integrative approaches for treating ADHD.*
- 3. Compare and contrast the treatment of anxiety-related conditions including social anxiety disorder, OCD and PTSD in children and teens.*
- 4. Describe how the pharmacologic treatment of depression and bipolar disorders differ including indications and adverse effects.*
- 5. Name an effective psychopharmacologic or psychological treatment of borderline personality disorder, disruptive mood dysregulation disorder, and an eating disorder.*

## ABOUT THE INSTRUCTOR

*Angelo Pezzote, PharmD., LPCC, LMHC, and LMFT, is a Board Certified Psychiatric and Neurologic Pharmacist with an interest in psychopharmacology and complementary psychological interventions. This unique background has prepared him to provide specialized information to healthcare professionals concerning the effectiveness of interventions for the treatment of neuropsychiatric disorders occurring in children and youth.*

*Dr. Pezzote is an outstanding speaker and has appeared on national radio and television programs. In addition, Dr. Pezzote has developed and taught continuing education programs to thousands of health professionals for over a decade. Participants highly recommend his practical and entertaining programs and his exceptional ability to communicate valuable information with clarity and warmth.*
