*Effective communication is critical to the healing process. In this 6-hour program, learn to identify the inherent wellness in a person with mental or physical illness and how to communicate in ways that lead to meaningful change.*

*This evidence-based program provides health professionals working in medical, dental, and behavioral settings with the key skills to produce calm, enhance hope, reduce pain, and promote recovery.*

*Participants completing this program should be able to:*

1. Identify brain and behavioral processes that contribute to the healing process.
2. List successful approaches to relieve anger, sadness and anxiety.
3. Outline effective strategies for handling difficult conversations.
4. List ways in which communication can reduce pain.
5. Describe how to apply Positive Psychology to promote mindfulness, positive emotions, self-compassion, and acceptance.

## ABOUT THE INSTRUCTOR

*Paula Butterfield, Ph.D., (Ohio State University) is a nationally celebrated psychologist, clinician, researcher, author, and instructor. Dr. Butterfield has directed the Educational Research and Training Division for the Department of Internal Medicine at Ohio State University and has been a Director of Physician Leadership and Management Education.*

*The winner of four awards for distinguished teaching, Dr. Butterfield has developed national training programs for over two decades. Her outstanding presentations integrate evidence-based research in the brain and behavioral sciences with essential communication strategies in people who are resistant to change. An outstanding speaker, Dr. Butterfield uses innovative teaching methods including the use of film clips.*
