*This program presents advances in Third-Wave psychological interventions that are applicable to the full range of nursing, behavioral and allied health professions.*

*Third wave interventions combine techniques that can improve mental flexibility, emotion regulation and distress tolerance to reduce the experience of reactive mental states*

*Third generation techniques when applied in combination are able to increase everyday positive experiences and wellbeing.*

*Participants completing this program should be able to:*

- 1. Describe techniques used to improve emotion regulation and mental flexibility.*
- 2. Explain therapies that can reduce trauma and its aftermath.*
- 3. Describe how cognitive processes can be combined with ways to promote wellbeing.*
- 4. Outline ways to promote positive states through a combination of techniques including Mindfulness-based Stress Reduction, Compassion Focused Therapy and Acceptance-Based Behavioral Therapy.*

## Reducing Negative States

- Emotion Regulation
- Increasing Distress Tolerance
- Seeing Both Sides of an Issue
- Reducing the Experience of Trauma
- Reducing Anxiety and PTSD
- Metacognitive Therapy (MCT)

## Promoting Wellbeing

- Mindfulness-Based Stress Reduction (MBSR)
- Engaging in Joyful and Meaningful Experiences
- Self-Compassion
- Acceptance-Based Behavior Therapy (ABBT)

## ABOUT THE INSTRUCTOR

*Hayden D. Center, Ph.D., LPC (Auburn University) is an expert in treating anxiety, mood, and substance use disorders. Dr. Center has authored or coauthored grants that have led to funding of advances in treatment and has presented this work at state, national, and international organizations.*

*Dr. Center is also recognized for excellence in teaching. He has developed and taught university and national training programs for students and health professionals. His programs feature innovative teaching methods including fascinating case histories and hand-on training to enable health professionals in medical, dental and behavioral health practices to apply these methods. Emphasis is placed on ways to reduce negative states such as anxiety, sadness, and trauma, and to enhance wellbeing and other positive emotions.*
