

Clinical Psychopharmacology Made Ridiculously Simple

A 12-Hour Home Study Program for Health Professionals | 87-Page Book

Clinical Psychopharmacology Made Ridiculously Simple provides succinct and clear information for nurses, behavioral health professionals, pharmacists, and allied health professions on the diagnosis and pharmacologic treatment of adults with depression, bipolar disorder, anxiety disorders, psychotic disorders, and miscellaneous disorders including obsessive-compulsive disorder, attention-deficit/hyperactivity disorder, aggression, eating disorders, and PTSD. The text contains useful summary information on dosing and side-effect profiles, and information on non-responders and “break through” symptoms. Case studies for each major disorder are provided.

Participants completing this program should be able to identify psychopharmacological treatment of adults with the following conditions:

1. Major and Minor Depressive Disorders
2. Bipolar Disorders
3. Anxiety Disorders
4. Psychosis
5. ADHD
6. Eating Disorders
7. PTSD
8. Disorders related to the use of over-the-counter and dietary supplements.

Chapter 1: General Principles

Chapter 2: Depression

- Major clinical features
- Differential diagnosis
- Common disorders and drugs that may cause depression
- Symptoms common to all depressions
- Vegetative symptoms
- Choosing medication: sedation and cholinergic effects
- Prescribing treatment: typical start-up regimes
- Decision tree for diagnosis and treatment: first episode
- Decision tree for diagnosis and treatment: subsequent episodes
- Special problems and medications of choice
- Side effect management: SSRIs
- Key points to communicate to clients
- If first line medications do not lead to remission
- Dysthymia
- Selection actions of antidepressants on neurotransmitters
- Major depression with atypical symptoms
 - Seasonal affective disorder
 - Premenstrual dysphoric disorder
 - Psychotic depressions
 - Precautions: tricyclic antidepressants
- Precautions: watch for bipolar disorder
- MAO inhibitors
- Notes on complementary and alternative products

Chapter 3: Bipolar Illness

- Diagnosis
 - Common disorders and drugs that may cause mania
 - Bipolar I versus Bipolar II
 - Typical bipolar versus rapid cycling bipolar disorders
 - Dysphoric mania or mixed mania
- Medications to treat bipolar disorders
 - When to prescribe

- o Choosing medication
- o Prescribing treatment
- o Decision tree for treatment of bipolar disorders
- o Lab tests of patients taking lithium
- o Common errors to avoid
- Key points to communicate to patients

Chapter 4: Anxiety Disorders

- Major clinical features and differential diagnosis
 - o Generalized anxiety disorder
 - o Stress-related anxiety
 - o Panic disorder
 - o Social phobias
 - o Medical illnesses and medication side effects
 - o Anxiety as a part of primary mental disorder
- Antianxiety medications
 - o When to prescribe antianxiety medications:
 - Generalized anxiety disorder
 - Stress-related anxiety
 - Panic disorder
 - Social phobias
 - o Choosing a medication
 - Generalized anxiety disorder
 - Stress-related anxiety
 - Stress-induced insomnia
 - Panic disorder
 - Social phobias
 - Common errors to avoid
 - o Key points to communicate to patients

Chapter 5: Psychotic Disorders

- Major clinical features and differential diagnosis
 - o Schizophrenia: positive and negative symptoms
- Psychotic mood disorders
- Psychosis associated with neurological conditions
- Common diseases and disorders that may cause psychosis
- Antipsychotic medications
 - o How to prescribe antipsychotic medications
 - o Choosing a medication
 - o Four forms of extrapyramidal side effects
 - o Prescribing treatment and what to expect
- Key points to communicate to patients

Chapter 6: Miscellaneous Disorders

- Obsessive-Compulsive Disorder
 - o Major clinical features

- o Medical treatment
- Borderline Personality Disorder
 - o Major clinical features
 - o Medical treatment
- Attention Deficit Hyperactivity Disorder
 - o Symptoms of ADHD
 - o Medications used to treat ADHD
- Aggression
 - o Psychiatric disorders presenting with aggression
 - o Medication options in the treatment of aggression
- Eating Disorders: Anorexia and bulimia
- Posttraumatic Stress Disorder
 - o Treating transient psychotic symptoms
 - o Treating acute symptoms of PTSD

Chapter 7: Non-Response and “Breakthrough Symptoms”

- Non-response checklist
- Unexplained relapse checklist

Chapter 8: Case Examples

- Major depressions
- Bipolar illnesses
- Acute situational anxiety
- Panic disorder
- Acute schizophrenia

PRIMARY AUTHOR

John D. Preston, Psy.D., ABPP, is Professor at Alliant International University, and has been Associate Clinical Professor at University of California, Davis. A Board Certified Neuropsychologist, he is the author of numerous texts concerning brain and behavior including Counseling Survivors of Traumatic Events, Child and Adolescent Psychopharmacology, Handbook of Clinical Psychopharmacology, and is co-editor of Empirically Validated Approaches to Psychotherapy. Dr. Preston received the Mental Health Association’s President’s Award for exceptional contributions to the mental health community.

An outstanding and inspiring speaker, Dr. Preston has given over 500 invited seminars to health professionals in North America and abroad. Participants commend his ability to communicate key insights and practical information with clarity, enthusiasm and warmth.
