

Mastering Sixteen Key Habits of Emotionally Resilient People

A 6-Hour Home Study Program for Health Professionals

Emotional resilience involves the ability to withstand and rapidly rebound from psychological stress.

Advances in the brain and behavioral sciences have revealed the critical role of emotional habits in response to threat, fear, anxiety, sadness, addiction, and cravings.

Health professionals working in medical, dental, and behavioral health practices and educators should be able to:

- 1. Identify how the brain acquires maladaptive and resilient emotional habits.*
- 2. Name several health benefits of emotionally resilient habits.*
- 3. Describe several habits of emotionally resilient people that can be applied to enhance your professional skills.*

NURSES: Institute for Brain Potential (IBP) is accredited as a provider of continuing nursing education by the **American Nurses Credentialing Center's Commission on Accreditation**. IBP is approved as a provider of continuing education by the **California Board of Registered Nursing**, Provider #CEP13896, and **Florida Board of Nursing**. This program provides 6 contact hours.

- Improving Sleep

ABOUT THE INSTRUCTOR

Kateri McRae, Ph.D., is Assistant Professor of Psychology at the University of Denver, and an expert in the study of emotion regulation. Her work includes the role of brain images to reveal how emotional resilience and maladaptive emotions are organized in the brain and practical approaches to improving emotional self-control.

Dr. McRae's lectures are highly regarded by health professionals. Her programs are both practical and inspirational. Using fascinating case histories, film clips, and her skills as an actress, Dr. McRae uses innovative teaching methods that make her presentations highly memorable and enjoyable, and are designed to enhance emotional resilience in health professionals and their patients.
