Anger, depression, and anxiety contribute to poor health outcomes in medical, dental, and behavioral settings. However, research and clinical experience demonstrate that the application of positive psychology can fundamentally improve health outcomes.

This 6-hour program is designed to provide health professionals and educators with key insights and tools to apply positive psychology in healthcare, educational or family settings to help overcome disabling thoughts and enhance happiness and well-being.

Participants completing this program should be able to:

- 1. Identify recurrent disabling thoughts that can undermine self-care.*
- 2. List several approaches to manage disabling thoughts that contribute to maladaptive anger, depression, anxiety and dysfunctional relationships.*
- 3. Outline ways to apply positive psychology to promote character strengths, sources of well-being and goal-setting.*
- 4. Outline ways to apply positive psychology to promote the three blessings, acts of kindness, and the passion to know, savoring, and gratitude.*
- 5. Outline ways to apply positive psychology to promote forgiveness, humor and sources of meaning and purpose.*
