COLLEGE EDUCATED PUBLIC: This program is recommended for individuals who wish to add to their personal and professional knowledge and to improve their health and wellbeing. Participants will receive a certificate of completion for 6 hours.

Overdose epidemics in the United States have reached unprecedented proportions. The regions in the United States with the highest proportion of overdose-related deaths are depicted in red and orange in the graphic.

Over 100 million Americans are in chronic pain, and those individuals are at particular risk of developing opioid- and other substance-related forms of dependence and addiction. In addition, vulnerabilities to addiction include trauma, mood disorders, PTSD, and disorders of impulse control.

Participants completing this program should be able to:

- 1. List key risk factors for determining who becomes addicted.*
- 2. Discuss how dopamine deficiency contributes to addiction-related disorders.*
- 3. List several ways that relief-seeking to manage pain, despair, and disability can become deadly.*
- 4. Outline best practices in preventing opioid-related deaths.*
- 5. List best practices for treating people with analgesic-related opioid use disorders through pharmacological and psychological interventions.*

Who Becomes Addicted

- Genetic Vulnerability
- Environmental Vulnerability
- Psychological Vulnerability
- How Pain and Distress Increase Risk

The Addicted Brain

- Understanding Addiction
- Dopamine and Craving
- Addiction-Related Disorders
- Intertwined Brains
- Relation to Eating Disorders and Self-Harm
- The Role of Chronic Pain

Deaths of Despair:

When Relief-Seeking Becomes Deadly

- Response Cycles that Intensify and Make Pain Chronic
- Altered Habit Brain
- How Relief from Pain and Despair Can Hijack the Habit Brain
- Reinforcing Disability
- Altering Prescribing Practices
- Drug Cessation

Preventing Overdose-Related Deaths

- Understanding an Evolving Overdose Epidemic
- Providing Overdose Education and Preventing Overdose-Related Deaths
- Managing Risk Factors Underlying Overdose

Addiction Treatment

- Effective Treatment of Opioid, Stimulant and Other Use Disorders
- Pharmacotherapy
- Setting the Stage for Recovery
- Reinforcing Recovery
- Combining Mental Health and Substance Use Treatment
- Reward Substitution
- Rapid Adaptation of Treatment and Overdose Prevention During and Following the Pandemic

ABOUT THE INSTRUCTOR

Jodie Trafton, Ph.D., a neuroscientist, is an affiliated Associate Clinical Professor of Psychiatry and Behavioral Sciences at Stanford Medical School and is Director of Program Evaluation for the treatment of addictive disorders, pain, and mental health conditions for veterans throughout the United States. Dr. Trafton is first author of Training Your Brain To Adopt Healthful Habits: Mastering the Five Brain Challenges (2019) and has authored numerous scientific publications concerning addiction, pain and related topics.

An outstanding speaker, Dr. Trafton teaches an acclaimed series of classes at Stanford University on addictive disorders and has taught for the Institute for Brain Potential for over a decade. Health professionals commend her ability to present practical discoveries with clarity, enthusiasm and warmth.

Policies and Procedures

1. You may order the audio CDs or audio-visual DVDs before the planned expiration date listed on the program brochure. You will have at least one year from the date you placed your order to complete the program for continuing education credit.
2. Program materials including CDs or DVDs, course outline and handouts, evaluation form, and post-test are delivered to you within 5-7 days from the date we receive your order. You will need a CD player to listen to the lecture on CDs and a DVD player to view it on DVDs.
3. Successful completion to receive continuing education credit includes 1) watching or listening to the recorded lecture and reviewing the program handouts, 2) submission of the program evaluation form and post-test, and 3) receiving a passing score of 75% on the posttest. Psychologists are encouraged but not required to submit program evaluation forms. No partial credit is given.
4. Post-tests are usually scored within 5 workdays of their receipt; please allow 10 workdays. You may retake the posttest without penalty or fee.
5. Program evaluation forms and completed posttests can be submitted to us by email at ceu@4brain.org, fax at (209) 710-8306, or by mail at IBP Distance Learning, PO Box 2238, Los Banos, CA 93635.
6. A certificate of completion is provided upon successful completion. Please indicate whether you wish to receive the certificate by email, fax, or mail on the registration form.
7. If you are not completely satisfied, you may return the course materials in a resalable condition within 30-days of your purchase and exchange it for another home study program of equal value or obtain a full refund minus a \$15 processing fee by submitting a refund request in writing or by email at refund@ibpceu.com. Tuition for continuing education credit is not refundable. Course materials should be returned to us at IBP Distance Learning, 245 W Pacheco Blvd. Ste. C, Los Banos, CA 93635.

Dedicated Customer Service

Call (888) 202-2938 or email info@ibpceu.com to inquire about course content, instructors, corrections, grading, or problem resolution, provide comments, request disability accommodations, submit a formal grievance, or remove your name from a list. Institute for Brain Potential complies with ADA requirements.

The IBP Experience

Our non-profit organization, tax ID 77-0026830, is the leading provider of accredited programs concerning the brain and behavioral sciences. We have been providing informative and practical continuing education programs since 1984. Our programs include fascinating and informative presentations by outstanding and highly qualified faculty.
