

Understanding Personality Disorders

A 6-Hour Home Study Program for Health Professionals

In this program, learn characteristics of the most common personality disorders and practical tips for working with or treating “difficult” individuals in medical, dental, and mental health settings.

Participants completing this program should be able to:

- 1. List key brain regions influencing social reasoning and conduct.*
- 2. Identify features of and effective treatments for paranoid, schizoid and schizotypal, antisocial, borderline and narcissistic, and obsessive-compulsive personality disorders.*
- 3. Describe personality disorders that may underlie hypochondriasis, body dysmorphic disorder, eating disorders, active and passive aggression, and substance use disorders.*
- 4. Review principles that facilitate the transformation of personality.*
