

Sleep and the Brain

A 6-Hour Home Study Program for Health Professionals

Informed by advances in neuroscience, pharmacology, and behavioral medicine, this program focuses on people who develop effective habits to overcome sleep problems associated with stress.

Participants completing this program should be able to identify:

1. How stress-related sleep disorders affect inflammation, appetite, pain, mood, anxiety, and risk of chronic disorders affecting the body and brain.
2. Indications and risks of benzodiazepine and non-benzodiazepine hypnotics, orexin antagonists, melatonin and melatonin agonists, alternative and complementary medicines, medical foods, and supplements.
3. Mental, environmental, physical, and nutritional habits that can promote restorative sleep in patients and health professionals working in medical, dental, and behavioral health practices.

NURSES: Institute for Brain Potential (IBP) is accredited as a provider of continuing nursing education by the **American Nurses Credentialing Center's Commission on Accreditation**. IBP is approved as a provider of continuing education by the **California Board of Registered Nursing**, Provider #CEP13896, and Florida Board of Nursing. This program provides 6 contact hours.
