

# Understanding and Treating Death Anxiety

## A 6-Hour Home Study Program for Health Professionals

Death anxiety is pervasive in many patients, family members and healthcare professionals. This program describes the nature of death anxiety, its impact, ways to effectively cope with end-of-life issues, and how we can use death anxiety to live more fully.

Participants including health professionals working in medical, dental and behavioral health settings should be able to:

1. Identify key characteristics of death anxiety.
2. Describe Terror Management Theory and its alternatives.
3. Distinguish between adaptive and maladaptive forms of coping concerning death anxiety.
4. Name several brain areas that contribute to death anxiety.
5. Outline ways to help ensure that patients receive the kind of end-of-life care that fulfills their directives.
6. Describe how to channel a death anxiety into life-affirming choices and experiences.
